

NETfinder Pro

NETfinder Pro is an expanded version of NETfinder. The Pro version adds the cable organizer function and includes 18 remotes. The organizer function allows the NETfinder Pro to identify hub/switch ports at the closest level, and to match cables at up to 18 different locations.

Features

- All-in-one tester: cable tester, tone generator Port-finder and cable organizer
- Manual step testing in forward, backward and stop sequences
- 18 remotes IDs for organizing up to 18 cables locations
- Other features are same as NETfinder
- Port-finder function to locate corresponding socket on 10/100M hub/switch
