

# WXSF 120

Product no.: T0051391199

## Benefits

- For solder wire from Ø 0.5 mm - 1.0 mm
- Feed motion, adjustable from 1 - 27.5 mm/s
- Max. solder wire weight 1 kg
- Usable only with Weller soldering stations!!

For this purpose, we recommend:

Solder fume extractors

Pre-heating plates

Cleaning

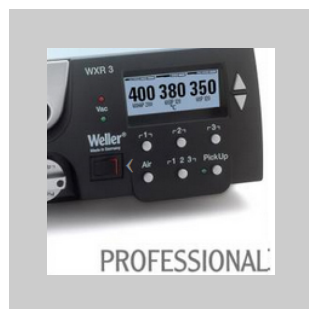

Soldering tips

Technical Data

|   |                                 |
|---|---------------------------------|
| Active Tip heating element technology     | ---                             |
| Power Response heating element technology | on                              |
| Silver Line heating element technology    | ---                             |
| Voltage                                   | 24 V AC                         |
| Power                                     | 120 W (126 W)                   |
| Tip range                                 | XT                              |
| Supply unit                               | WX 1, WX 2, WXD 2, WXA 2, WXR 3 |
| WX-compatible                             | on                              |
| Temperature range °C                      | 100 - 450                       |
| Temperature range °F                      | 200 - 850                       |
| Heating time                              | 14                              |
| Safety rest                               | ---                             |
| Safety rest (optional)                    | ---                             |
| Barrel                                    | T0058763731                     |
| Integrated direct extraction              | ---                             |
